GLOBAL CYBER DEFENSE ISSUES AND TRENDS

AFP Summit on Enhancing Cyber Security Programme
March 10 - 11, 2010.
Stephen P. Cutler

Information is
Key

**What are we talking
about?**

**Why cyber defence?
How is this different from
"security"?**

Active Volcanoes, Plate Tectonics, and the "Ring of Fire"

Information is

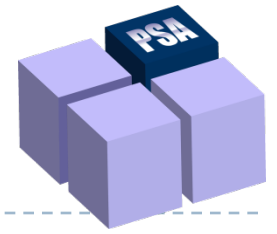

Key

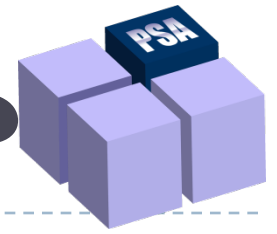

Motivation matters

The interconnectivity of the world blurs the lines between traditional criminals, traditional espionage and traditional military threats

This is how the world appears:

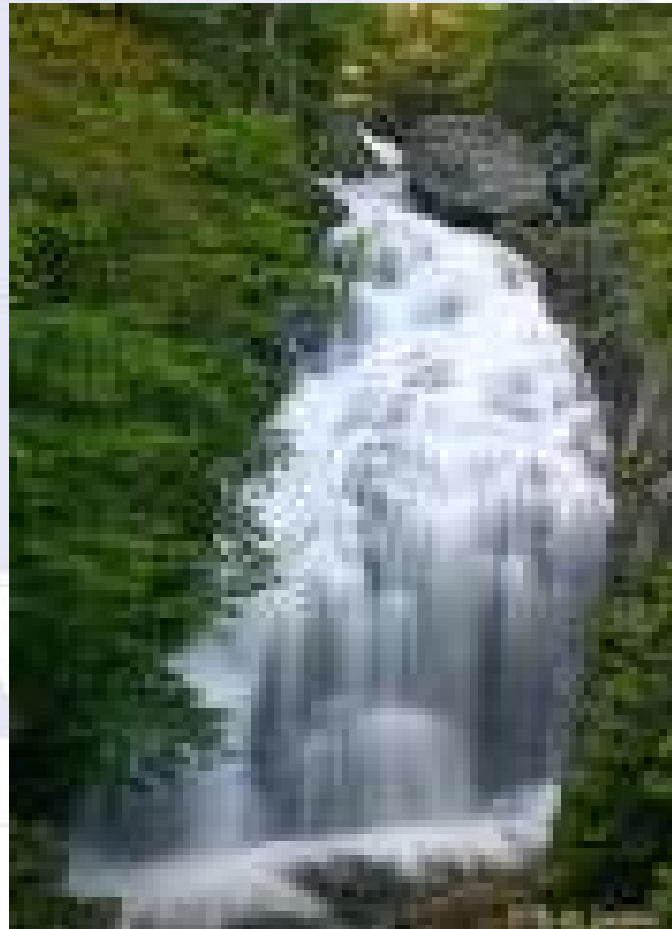

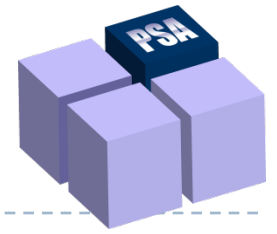

What are we looking at?

- ▶ **"Anytime you have an unprotected node of any kind, you are putting that node into position to be the platform for an attack on government or business"**

**Greg Schaffer, US DHS Ass't
Secretary for Cybersecurity and
Communications**

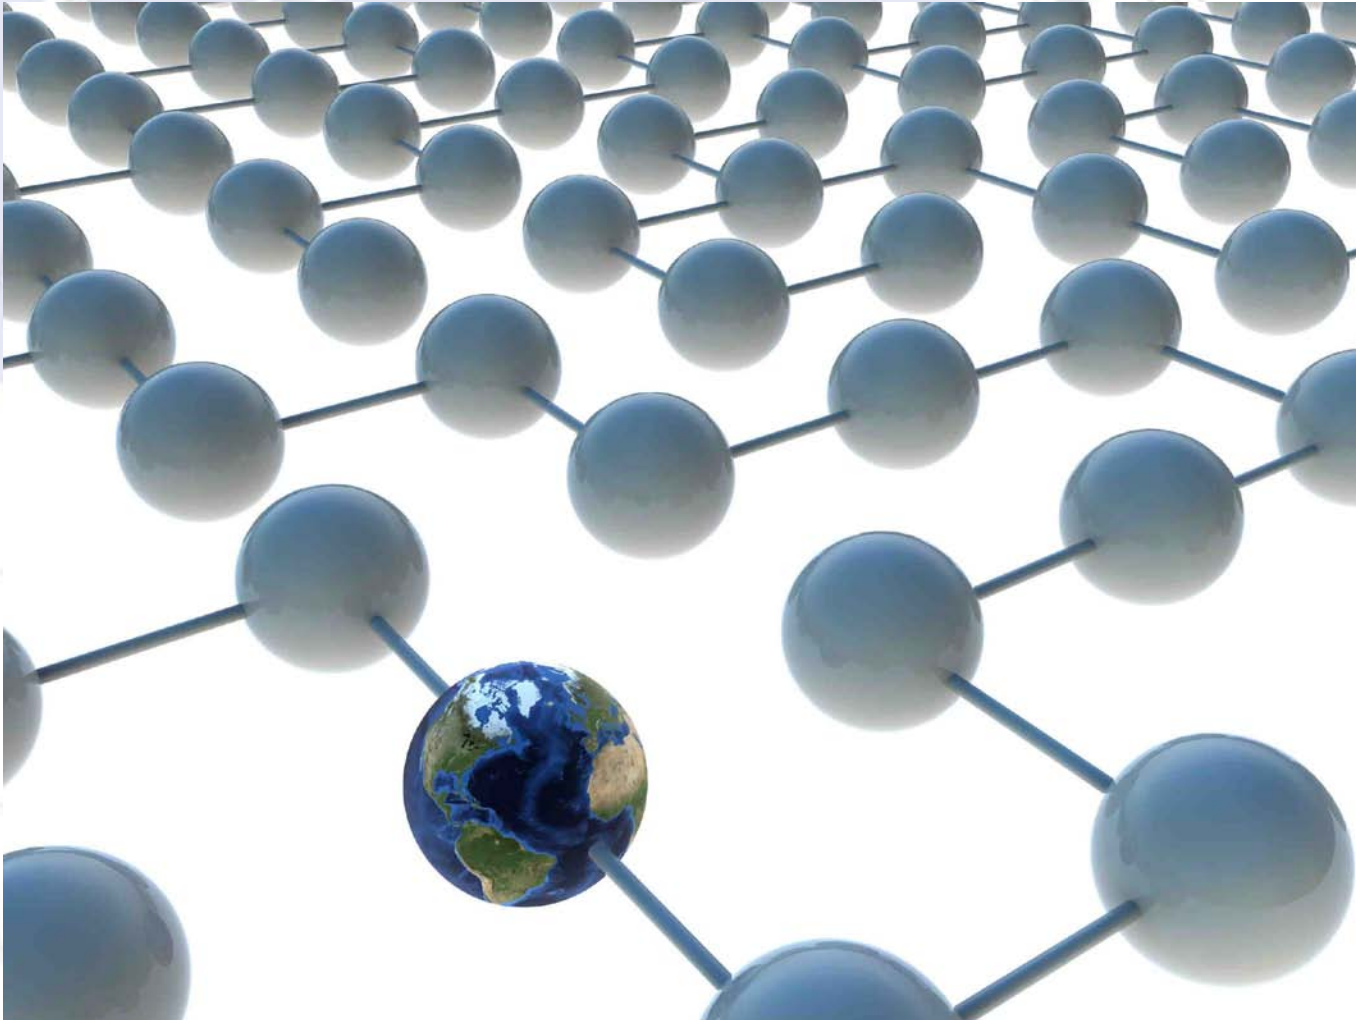

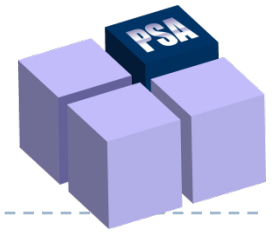

Cascade

Information is

Key

Pay attention to nodes
